RE: Roy Lindy #1 Petition for Mandatory Integration  
Gibson County, Indiana

Dear Mr. Illingworth:

The Division of Oil and Gas has received and reviewed the Roy Lindy petition for mandatory integration which you submitted on behalf of Hydrocarbon Investments, Inc.

Based on our review of the petition and the conversations we've had with you regarding this matter, the division has determined that mandatory integration is not appropriate in this particular case. In accordance with IC 14-37-9-1(a), the commission may require integration if at least two separately owned tracts of land are located within an established drilling unit or within a pool or part of a pool suitable for secondary recovery methods. It is clear that there is only one tract of land covering this drilling unit, and as such, would not qualify for mandatory integration. The division is therefore denying this petition at this time.

If you wish to appeal this decision and qualify for administrative review pursuant to IC 4-21.5-3-6, you must petition for review in writing. The petition must state facts that demonstrate the following:

- (A) The petitioner is a person to whom the order is specifically directed;
- (B) The petition is aggrieved or adversely affected by the order; or
- (C) The petition is entitled to review under any law.

The petition must be filed within thirty (30) days from receipt of this notice. The petition must be filed with the Natural Resources Commission, Division of Hearings, Indiana Government Center North, 100 North Senate Avenue, Room N501, Indianapolis, Indiana, 46204-2200.

Sincerely,

Herschel L. McDivitt  
Director, Division of Oil & Gas  
317-232-4058
